Age: None

Race: Table shows total numbers served in both state hospital and community settings. Data is missing for 2,429 persons (718 females and 1,711 males) for whom data was unavailable due to differences in coding between reporting systems. Data for 70% of the persons (5,557 out of 7,986) seen in state hospitals are included through matching community with state hosp. identifiers using a unique identification number. Data for "more than one race" are not currently reported in Illinois reporting systems.
